

Post-post partum (post Post-Partum Document)

Text from my mother's five-year diary: the date I was born, and the dates my three children were born. And my own text reflecting upon the post partum relationship, in my mother's life, in my own life, and as apearing in Mary Kelly's work. The intensity, or lack of. The mundane and the overflowing of the mundane. The drabness or the simplicity?
